Will talk to Stephen. He has no response duty scheduled for those two weeks so unless he has other commitments he should be able to support.

Pete

We should be able to handle it. I am copying Stephen's first line supervisor to make sure that he nothing pending or conflicting

Thanks

Jim

PS. Don't zap my guy! :)

Hey Jim:

We could use some assistance with a removal evaluation we are conducting out in Navajo country in Region 9, and I'd like to request your approval for temporary cross-regional support. We're a little short handed right now with vacations, various projects, outreach, an other assorted work.

I believe Randy Nattis has been speaking with one of your OSCs, Stephen Ball, about helping us out.

The site in question is the Haystack #1 Abandoned Uranium Mine (AUM), located on the Navajo Nation in New Mexico. OSC Ball would be on-site the week of August 11<sup>th</sup>, lasting 10 days (or less depending on, well you know, nothing ever goes as planned). Randy is also augmenting EPA resources with support from Regions 6, 8, as well as ERT. We will also have our START contractor on-site. I'm hoping OSC Ball could mobilize on 8/11 and be on-site no later than 8/20.

Costs for travel can be covered under site specific travel funding.

I really appreciate any support you can give us. Feel free to contact me if you have any questions. I'm in the office all week.

Thanks
